Pope John XXIII Catholic MAC
Investment Policy

A, Background

- A1. The Education Funding Authority (EFA) acknowledges that Academies are able to make investments and these investments can be a good source of funding, but can also expose schools to risks.
- A2. A financial investment is when an investment of funds is made to get the best financial return within the level of risk considered to be acceptable. The Charity Commission advises that Directors have several legal responsibilities when making financial investments.
- A3. They must:
- Know and act within their powers to invest.
 - Exercise care and skill when making investment decisions.
 - Select investments that are right for the school. This means taking account of:
 - The suitability of any investment in relation to the school's needs.
 - The need to manage risk and consider suitable diversification.
 - Take advice from someone experienced in investment matters unless they have good reason for not doing so.
 - Follow certain legal requirements if they are going to use someone to manage investments on their behalf.
 - Review investments periodically.
 - Explain their investment policy in their annual report.
- A4. Directors must be clear about what they aim to achieve through financial investment. They must consider exactly what they want to do, how they intend to do it and what the timescale will be. They must also consider the MAC's long and short term financial commitments as well as its expected income.
- A5. The MAC's Articles of Association permit the Directors to make investments see Appendix A.

B. Risk

- B1. A certain degree of risk is associated with all investments and Directors must do all they can to manage risk levels. Before any investment decisions are made, Directors must consider the level of risk they are able to accept. They must be satisfied that the overall level of risk they are taking is appropriate for every Academy in the MAC. Losses may result in a low return on an investment, or the complete loss of all money invested. If this occurs, Directors should review their approach to risk and take the opportunity to learn from their experiences.

C. Policy Statement

- C1. This policy governs the investment strategy of the Pope John XXIII Catholic Multi Academy Company (MAC) and all establishments that constitute the company. The charitable funds of the MAC are derived from direct government grants and these funds are defined as restricted. Additional charitable funds are generated through the operational nature of the MAC's work, such as providing education, training and development; these funds are defined as unrestricted.

Investment Policy

C2. The trustee of these funds is the MAC, managed by its Board of Directors. Therefore, there is a sole corporate body/trustee with responsibility for managing and administering the assets of the charitable funds and investments.

C3. The management of charitable funds and investments will comply with the requirements of the:

- Charities Act 2011;
- Trustee Act 2000;
- Financial Services and Markets Act (FSMA) 2000; and the
- Charity Commission Guidance Notes CC14
- Education Funding Agency Academies Financial Handbook(currently in force)

C4. Pope John XXIII Multi Academy Company takes a prudent approach to managing the public money entrusted to them. They will carefully invest any money that is not required to cover anticipated expenditure and take steps to manage the risk associated with financial investments.

D. Scope of Policy

D1. This policy applies to all Directors, Academy Representatives and employees of the MAC; a breach of the investment policy and procedure may result in disciplinary action.

D2. The Finance and Resources Committee of the MAC is responsible for monitoring adherence to this policy, the appointment of investment advisors/managing agents, and for deciding changes between the proportions of funds invested in common investment funds and/or liquid investments (Cash Deposits).

D3. The Accounting Officer and Business Director are responsible for ensuring that the policy is followed for all investments held.

D4. The Business Director is authorised to withdraw and deposit funds from and into liquid investments (Cash Deposits) to meet immediate working capital requirements.

E. Objectives and targets

E1. The purpose of this policy is to ensure that any surplus funds are invested well so that they achieve the best financial returns with the minimum risk.

F. Strategic plan

F1. Adequate cash balances must be maintained to ensure that there are always sufficient funds in each Academy's current account to cover financial commitments such as payroll and day-to-day expenses. Surplus funds not needed within an initial 90 day period will be considered for investment in line with each Academy's cash flow forecast.

F2. Short term funds expected to be required within a 12 month period should be held in liquid investments and invested in tranches of up to £100,000, after approval from the Finance and Resources Committee. It may be beneficial to invest each tranche with a different financial institution. Funds, and any interest they earn, will be automatically

reinvested, unless they are required for immediate or anticipated expenditure.

- F3. When selecting a suitable investment, the financial strength of the financial institution should be considered within the assessment of the overall suitability. The Finance and Resources Committee has agreed that suitable banks will have a credit rating of no lower than BBB or building societies should have group assets of £2,000m or above.
- F4. At the time of writing this policy it is not anticipated that there will be any funds available for longer term investment, should this position change in the future this policy will be amended to include a suitable strategy to manage this requirement.

G. Monitoring and evaluation

- G1. The Business Director or delegated person will compare alternative investment opportunities every six months to ensure that the company's funds achieve the acceptable interest rates.
- G2. Actions taken will be reported to the Board of Directors biannually and the MAC's annual report and financial statements will describe the investment policy used to select the MAC's investments as well as reporting on the performance of investments.

H. Policy Review

- H1. This policy will be actively reviewed and changes applied to reflect the nature of the MAC's operations, beneficiaries, and operating environment.

Extract of Articles of Association Section 4

The Board of Directors is authorised.....

- (o) to deposit or invest any funds of the Company not immediately required for the furtherance of its object (but to invest only after obtaining such advice from a financial expert as the Directors consider necessary and having regard to the suitability of investments and the need for diversification);
- (p) to delegate the management of investments to a financial expert, but only on terms that:
 - (i) the investment policy is set down in writing for the financial expert by the Directors;
 - (ii) every transaction is reported promptly to the Directors;
 - (iii) the performance of the investments is reviewed regularly with the Directors;
 - (iv) the Directors are entitled to cancel the delegation arrangement at any time;
 - (v) the investment policy and the delegation arrangement are reviewed at least once a year;
 - (vi) all payments due to the financial expert are on a scale or at a level which is agreed in advance and are notified promptly to the Directors on receipt; and
 - (vii) the financial expert must not do anything outside the powers of the Directors;
- (q) to arrange for investments or other property of the Company to be held in the name of a nominee company acting under the control of the Directors or of a financial expert acting under their instructions, and to pay any reasonable fee required;
